

PUMP TIPS — Model# TL2570

Thermal Relief Valve

Unloader

- DO NOT attempt to remove the black plastic plugs; the oil is good for the life of the pump—**no oil change required**
- Ensure that your Garden Hose Filter is properly in place before using your pressure washer
- Ensure that the shaft key is properly in place before pump is installed—please contact us with questions.
- The Chemical Injector feature works in conjunction with Soap/Chemical Spray Tips or Hi/Low nozzle set to "Low".
- Protect and Prolong the life of your pump with the use of Pump Saver!
