

PARTS LIST FOR
3005 SERIES
PORTABLE
ELECTRIC DRIVEN/BELT DRIVE
COLD WATER PRESSURE WASHER

For parts Call 888-279-9274

Motor Horsepower:	10 H.P.
Pump Oil Grade:	Pump Oil #AW-4085-0016
Pump Oil Capacity:	37.2 oz.
Nozzle Size:	5.5

This Parts Listing has been compiled for your benefit. You can be assured your new Cold Water Pressure Washer was constructed and designed with quality and performance in mind using over 25 years experience in the pressure washer business. Each component has been rigorously tested to insure the highest level of acceptance.

The contents of this Parts Listing are based on the latest product information available at the time of publication. The manufacturer reserves the right to make changes in price, color, materials, equipment, specifications or models at any time without notice.

WARNING

THIS IS A PROFESSIONAL HIGH PRESSURE, COLD WATER PRESSURE WASHER. CAUTION SHOULD BE OBSERVED WHEN USING OR REPAIRING THIS UNIT! READ AND FOLLOW THE SAFETY WARNINGS LISTED BELOW BEFORE ATTEMPTING ANY REPAIRS ON THIS PRESSURE WASHER!

SAFETY WARNINGS

1. NEVER alter or modify the equipment. Be sure any accessory items and system components being used will withstand the pressure developed. Use only genuine manufactured parts for repair of your pressure washer. Failure to do so can cause hazardous operating conditions and will VOID warranty.
2. NEVER make adjustments on machinery while the unit is connected to the engine without first removing the ignition cable from the spark plug. Turning over the machinery by hand during adjustment or cleaning might start the engine and machinery with it, causing serious injury to the operator.
3. Know how to stop and bleed pressures quickly. Be thoroughly familiar with controls.
4. Before servicing the unit, turn unit off, relieve the water pressure and allow the unit to cool down. Do not make repairs while the unit is running. Service in a clean, dry, flat area. Block the wheels to prevent the unit from moving. Be especially careful to properly dispose of any flammable materials.
5. After testing the machine, DO NOT leave the pressurized unit unattended. Shut off the unit and release trapped pressure before leaving.

This exploded view diagram illustrates the assembly of a hydraulic valve. The components are numbered 1 through 25. The assembly is shown in a vertical sequence, with a side view of a sub-assembly (components 15-20) shown to the right. The main assembly sequence from top to bottom is: 1 (Nut), 2 (Washer), 3 (Nut), 4 (Coil), 5 (Washer), 6 (Screw), 7 (Washer), 8 (Washer), 9 (Washer), 10 (Nut), 11 (Washer), 12 (Washer), 13 (Washer), 14 (Washer), 15 (Screw), 16 (Washer), 17 (Washer), 18 (Washer), 19 (Washer), 20 (Washer), 21 (Washer), 22 (Washer), 23 (Washer), 24 (Washer), 19 (Washer), and 25 (Nut).
